

Society of One-Armed Golfers

England/Wales & Scottish autumn championships

9th-11th October 2026

This year for our Autumn championships we return to the South coast and to the spectacular Walmer/Kingsdown Golf Club

The course offers a stunning golf experience with breathtaking views of the Dover Straits, you can even see France on a good day, though, of course, you may prefer not to. The course is known for its challenging holes and well-maintained greens. Much will depend on the weather conditions, but it is widely considered a good test of golfers of all abilities. The club is friendly and welcoming and is home to Robert Paul, one of the country's top one-armed golfers. They are looking forward to welcoming the Society back after an absence of approaching 10 years.
